

Keep track of your sample data

M611 Mobile Label Printer with Brady Workstation Mobile or Desktop Software

Your sample is only as valuable as the data behind it. Maintain data integrity with high performance identification — stay connected to your data with the M611 Mobile Label Printer and Brady Workstation Mobile or Desktop Software.

Through data automation, you can seamlessly get your data on your label in a format you need. It's all in the powerful Brady Workstation Express Labels Mobile App that **connects your data to label templates so you keep your data integrity without any extra work**. When it's time to start creating labels, simply pull from your data file and get to work.

With the Express Labels App, you can get your templates on your mobile device or tablet anywhere in your lab via the cloud or email, and get data from preexisting barcode labels using the device's camera. Need to make a change? No problem — this app lets you edit text, change layouts or create labels from scratch. When you've got your labels exactly how you need them, print on the M611 via Bluetooth or Wi-Fi. With this powerful software and printer combination, you also get:

- High-performance printing with a small footprint when bench space is limited
- Long-lasting identification with label materials designed to survive your harsh lab conditions
- Easy to use templates for common lab labels

Enjoy a more premium labelling experience with optimised Brady Authentic materials Authentic materials work seamlessly with Brady printers to produce enhanced performance and

Authentic materials work seamlessly with Brady printers to produce enhanced performance and reliability you just don't get with materials from the others. We've got you covered with the widest range of colours, finishes and targeted applications in the industry. Get authentic. Get better with Brady.

Label materials

B-number	Material	Description
B-403	Paper	Paper label completely dissolves in warm water within 30 seconds, leaving no adhesive residue behind.
B-461	Polyester	Ultra-thin polyester label with a clear overlaminate tail that protects the print and allows liquid levels to be visible.
B-481	Polyester	White StainerBondz [™] Polyester with extreme chemical-resistance that withstands the rigours of typical deparraffinisation including ethanol, xylene and H&E staining process.
B-488	Polyester	White Polyester with moderate chemical resistance for short-term exposure to xylene, DMSO and ethanol.
B-490	Polyester	White FreezerBondz [™] label ideal for flat frozen surfaces. Adheres to frozen tubes and vials when wrapped around itself by at least 3mm. Can be applied to already frozen surfaces with a small overlap.
B-492	Polyester	FreezerBondz ultra-thin white polyester label for labelling of frosted/frozen or room temperature vials, tubes and canes. Superior chemical and abrasion resistance.
B-494	Polyester	Our B-494 polyester label is a reliable sample identification and traceability solution. The label will stay attached and remain legible, even when exposed to chemicals or stored in liquid nitrogen. Thanks to subsurface printing, the label's colour code will not fade, smear or smudge and will continue to offer fast sample recognition long after it was printed.
B-498	Vinyl cloth	Repositionable white vinyl cloth label for re-identification of post process tissue cassettes or general lab applications. Can be applied directly onto the cassettes or on top of the previous label.
B-499	Nylon cloth	Thick white nylon cloth with permanent adhesive for easy handling and conformability.
B-7425	Polypropylene	Economical white polypropylene label with moderate chemical resistance, ideal for labelling dry, room temperature specimen containers. Must be applied to containers prior to being frozen.

Software options

Brady Workstation Laboratory Identification Suite

Ensure labels for all your lab samples and equipment are crisp, clear and contain all necessary information. Easily design and create labels for your cryovials, centrifuge tubes, bottles, conicals, slides and other samples in your laboratory on this desktop software.

Brady Workstation Express Labels Mobile App: Increase lab efficiency by clearly identifying samples

Labels that survive harsh conditions are essential for tracking. Express Labels simplifies lab ID with barcodes and customised text.

- **Vial labelling**: Choose from a variety of layouts with the option to add barcodes and serialise ID numbers.
- Slide labelling: Design slide labels with clear, customisable text and barcodes.
- Tube labelling: Create tube labels with sequenced barcodes and customisable text.
- Scan Barcodes: Easily add values to barcodes and QR codes after scanning.

Printers

Article No.	Description
317844	M611 Label Printer - EU
317836	M611 Label Printer - UK
317843	M611 Label Printer - US

This printer ships in a cardboard box holding a USB cable, a quick start guide, an AC powercord, a product USB (with product info and Windows driver), a Brady Workstation Design Suite, a roll of M6-11-427 and an M61-R4310 ribbon.

Article No.	Description
317840	M611 Label Printer - EU with Brady Workstation LAB Suite
317841	M611 Label Printer - UK with Brady Workstation LAB Suite
317842	M611 Label Printer - US with Brady Workstation LAB Suite
